Ahmed, A.: Mechanism of Reversion of the <i>gal3</i> Mutation of <i>Escherichia coli</i> . . . . .	243
Ahmed, A., Seraba, D.: The Nature of the <i>gal3</i> Mutation of <i>Escherichia coli</i> . . . . .	233
Aigle, M., Lacroute, F.: Genetical Aspects of [URE3], a Non-Mitochondrial, Cytoplasmically Inherited Mutation in Yeast . . . . .	327
Apirion, D., Watson, N.: Unaltered Stability of Newly Synthesized RNA in Strains of <i>Escherichia coli</i> Missing a Ribonuclease Specific for Double-Stranded RNA . . . . .	317
Bailone, A., Blanco, M., Devoret, R.: <i>E. coli</i> K12 <i>inf</i> : A Mutant Deficient in Prophage $\lambda$ Induction and Cell Filamentation . . . . .	291
Bertani, G.: Deletions in Bacteriophage P2. Circularity of the Genetic Map and Its Orientation Relative to the DNA Denaturation Map . . . . .	107
Birnboim, H. C., Nasim, A.: Excision of Pyrimidine Dimers by Several UV-sensitive Mutants of <i>S. pombe</i> . . . . .	1
Blanco, M., s. Bailone, A., <i>et al.</i> . . . . .	291
Brammar, W. J., s. Pannekoek, H., <i>et al.</i> . . . . .	199
Brunel, F., Davison, J.: Bacterial Mutants Able to Partly Suppress the Effect of <i>N</i> Mutations in Bacteriophage $\lambda$ . . . . .	167
Canosi, U., s. Mazza, G., <i>et al.</i> . . . . .	9
Chattoraj, D. K., Younghusband, H. B., Inman, R. B.: Physical Mapping of Bacteriophage P2 Mutations and Their Relation to the Genetic Map . . . . .	139
Chaudhuri, R. K., s. Dutta, S. K. . . . .	227
Collins, J., Williams, P., Helinski, D. R.: Plasmid <i>ColE1</i> DNA Replication in <i>Escherichia coli</i> Strains Temperature-sensitive for DNA Replication . . . . .	273
Davison, J., s. Brunel, F. . . . .	167
DeBusk, A. G., s. Martin, Ch. E. . . . .	31
Dedonder, R., s. Niaudet, B., <i>et al.</i> . . . . .	337
Devoret, R., s. Bailone, A., <i>et al.</i> . . . . .	291
Dutta, S. K., Chaudhuri, R. K.: Transcription of Repetitive DNA in <i>Neurospora crassa</i> . . . . .	227
Dutta, S. K., s. Ojha, M., <i>et al.</i> . . . . .	151
Eckardt, F., Kowalski, S., Laskowski, W.: The Effects of Three <i>rad</i> Genes on UV Induced Mutation Rates in Haploid and Diploid <i>Saccharomyces</i> Cells . . . . .	261
Ehring, R., s. Schumacher, G. . . . .	41
Falaschi, A., s. Mazza, G., <i>et al.</i> . . . . .	9
Ferrari, E., s. Mazza, G., <i>et al.</i> . . . . .	9
Fortunato, A., s. Mazza, G. <i>et al.</i> . . . . .	9
Gay, P., s. Niaudet, B., <i>et al.</i> . . . . .	337
Helinski, D. R., s. Collins, J., <i>et al.</i> . . . . .	273
Inman, R. B., s. Chattoraj, D. K., <i>et al.</i> . . . . .	139
Khan, N. A.: Genetic Control of Maltase Formation in Yeast. III. Isolation and Characterization of Temperature-sensitive Mutants Affecting Maltase Induction and Maltose Utilization. . . . .	55
Klingmüller, W., s. Teles Grilo, M. L. . . . .	309
Kłopotowski, T., s. Wild, J. . . . .	63
Kosel, C., s. Mount, D. W. . . . .	95
Kowalski, S., Laskowski, W.: The Effect of Three <i>rad</i> Genes on Survival, Inter- and Intragenic Mitotic Recombination in <i>Saccharomyces</i> . I. UV Irradiation without Photo-reactivation or Liquid-Holding Post-Treatment . . . . .	75
Kowalski, S., s. Eckardt, F., <i>et al.</i> . . . . .	261
Lacroute, F., s. Aigle, M. . . . .	327
Laskowski, W., s. Eckardt, F., <i>et al.</i> . . . . .	261
Laskowski, W., s. Kowalski, S. . . . .	75

Lopez, R., Tapia, A., Portoles, A.: The Influence of Glutamic Acid and Arginine on the Competence of <i>Bacillus subtilis</i> Growing in a Chemostat . . . . .	87
Martin, Ch. E., DeBusk, A. G.: Temperature-sensitive, Osmotic-remedial Mutants of <i>Neurospora crassa</i> : Osmotic Pressure Induced Alterations of Enzyme Stability . . . . .	31
Mazza, G., Fortunato, A., Ferrari, E., Canosi, U., Falaschi, A., Polsinelli, M.: Genetic and Enzymic Studies on the Recombination Process in <i>Bacillus subtilis</i> . . . . .	9
Mount, D. W., Kosel, C.: Ultraviolet Light-induced Mutation in UV-resistant, Thermosensitive Derivatives of <i>lexA</i> <sup>-</sup> Strains of <i>Escherichia coli</i> K-12 . . . . .	95
Nasim, A., s. Birnboim, H. C. . . . .	1
